OFFICIALS SEEKING RE-ELECTION

J. B. WHITE

Nature laughs in the spring and the world laughs with her. It is the salvation of human existence, this natural provision for perennially recurring laughter. This relaxation of spirit is the safety valve of the human heart, enabling it to carry on indefinitely against all depressing incidents of life on a small, easily disturbed world. Like an old friend who never deserts us, the spirit of spring appears on schedule to assure us of the worthwhile considerations of carrying on and marshaling our reserve philosophies to make the best of what life has to offer.

In the spring, a young heart's fancy lightly turns to thoughts of life's compensations. In a sense every heart is young in the spring—or at least as young as it feels. And with youth, returns again the disposition to laugh off things that are dead-wood on our outlook, our moral poise and our ability to "take it." How drearily important winter can pretend to be; and what an insignificant it appears in the light of spring. However long it belabored us, it is forgiven—all but forgotten.

Spring is that jealous of our affections that she insists on our turning our backs on all that is past and oppressing and looking forward with her to stimulating realities of change, refluorescence and provocative life—winking, singing and calling in open abandon and in terms of significance as plain as all out doors. Small wonder that hope springs vernal in the human breast and every heart echoes nature's sunny invitation. "Let's dance!"

The season proclaims a bank holiday for humanity's dwindled personal resources. The first day of spring is nature's birthday. The flowers bloom as myriad candles on her birthday cake, which even the strongest March wind despairs of blowing out. Whatever one's situation, what personality can hold itself aloof from participation in spring's fiesta? And who would want to? The flowers that bloom in the spring, tra la, have plenty to do with our case: If they can come out on top, need we fear that anything can keep us down?

Some social philosopher has made the interesting discovery that feminine fear of over-accentuated figure increased as use of labor saving machinery became general. In recognition of this, the same concerns that sold the labor saving machinery also marketed reducing machinery to keep the housewife supple and svelts.

Of course all this involved considerable expense and also entailed real money worries during the recent depression. Again trained minds came to the rescue, and some of the elders remembered that there were stately, slender women before there were electric vibrators and systems of beauty exercise.

Up speaks Miss Dorothy H. Bateman, women's physical instructor at Cornell University. "The broom is a homely thing," says she, but it holds many a beauty secret. And she continues with the bold statement that a woman doing her regular housework may get all the benefits to be derived from special exercises if she will learn proper postures and keep in the right frame of mind. Even stair climbing, Miss Bateman declares, is as good physical development as any of the routine gymnasium exercises.

This may sound like heresy to the labor saving machine interests, but many a grandpa will verify it out of his most sentimental memories.

Petticoats, parasols and fans came back to the fashion scene when designers displayed the new spring mode in Paris.

Dark day frocks with fairly full skirts were worn with petticoats of striped or polka dotted taffeta. Many

R. M. KENNEDY ASKS 2ND TERM AS SHERIFF

R. M. Kennedy, sheriff for Milam County, has announced to the readers of the Herald's Thursday morning edition, that he is a candidate for re-election to a second term in office, subject to the July Democratic Primary to be held on Saturday July 25.

Sheriff Kennedy is a native born citizen of Milam county, one of the few men to have first seen the sunlight on the soil of old Milam, to serve in this office. His impressive victory at the polls in July, 1934, gave the people's expression of their confidence in his ability to undertake and to perform the duties of this important office.

In the spirit of helpful co-operation and asking the aid of the people, he took the oath and as he begins the second half of his first term, is able

COLLINS IS NAMED COMMERCE PRESIDENT

Albert Collins was elected President of the Chamber of Commerce on Friday afternoon at a meeting of the directors of the organization.

Mr. Collins has been active in the work of the club, is a member of the Athletic Council and a fraternal leader and was born and reared in Cameron and for years has been in the postal service at the federal building. Mr. Collins, a young business leader, plans an ambitious program for 1936. He succeeds John B. Henderson.

Other officers named are John T. Balwin, first vice president; F. E. Woodruff, second vice president and B. F. Reicheart, secretary. W. F. Padon, present secretary, will be re-elected on March 24.

COUNTRY CLUB NEARS NEW SET UP STAGE

Reorganization of the Cameron Country Club is near complete, it was announced Wednesday by Stanley H. Swift who requested publication of the invitation to others to join in the new set up.

If there be any who have not been asked to participate they are requested to see Mr. Swift, Bassett Watson or Dr. James Watson. It is not the purpose of the committee to overlook anyone who might be interested in a membership under the new plan.

The club property will be sold soon under foreclosure proceedings but will be purchased by three members of the original note and held for the new organization.

WALTER FUCHS ASKS FOR RE-ELECTION

Walter H. Fuchs, commissioner of Precinct No. 1, takes this method to place his candidacy for re-election before the voters of Beats 6 and 7, subject to the action of the Democratic Primary to be held in Milam County on July 25, 1936.

Mr. Fuchs, who announced for the position two years ago, said in campaign speeches, "I was appointed recently by the county judge to fill the unexpired term of my late father, and during the short period of time in which I have served you, I have learned to my own satisfaction and have proven to you, the tax payers, voters and general public, that I can capably and efficiently discharge the duties imposed by the office. I pledge you, if elected, a term which will be

HAPPY DAYS HERE TO STAY GLOBE VET TELLS READERS OF THURSDAY HERALD

They call him "Burning Daylight"—the men of the "road" and the newspapermen of the country call him the "Original Globe-trotting Reporter." He is a soldier of fortune, an adventurer, and has gone through the experience of fighting in many wars and revolutions. That's Jack Lloyd, 67, a native Texan, and still able to globe trot—and still young enough to "pound out copy."

Jack "hit" Cameron last Friday, he looked over the town, roamed around a "little while" . . . then came into the Herald office . . . and gave us his view points on the coming election . . . and conditions in general over the country.

Knows the Country

Jack knows the country very well, and to prove that he is on the go, he carries with his 2 large scrap books that are full of clippings from all over the country . . . the principal cities and towns of 37 states.

Roosevelt Sure Winner

When asked if Roosevelt would be re-elected, . . . Jack said . . . yes. He will carry the country as strong as he did in the last election and the heaviest voting states of the country are for Franklin D. . . . He said New York his own native state . . . will bury

the hatchet about their various democratic arguments . . . and will pull together for the re-election of Franklin D. . . . for Jack tells you, that the New Yorker will not desert a native son when it comes to a presidential election this year. Pennsylvania, California, Illinois, Ohio, and the New England States with the exception of Maine, should vote for Roosevelt.

Mid-West For Him

Then Jack tells you even the great Mid West, the home of chief Republican candidates, will go democratic because this section of the country, being hailed as the "Bread Basket"—will cast its vote for the man that gave them the first price for their small grains since the days of the war. . . . Kansas, Nebraska and Dakotas . . . Minnesota, the Farmer

Jesse James Runs For Re-Election

JESSE JAMES

BIG MONEY

Milam County received under AAA \$1,418,715.44 for cotton acreage rented to the government and \$50,290.24 on hog and corn contracts, it was revealed today in figures released by the administration. The 1935 rental payments totaled \$545,263.79 for cotton and \$34,932.64 for corn and hogs.

Representative Jesse James is a candidate for the Democratic nomination for Representative from the 65th Floterial District, composed of Milam, Lee and Burleson counties, he announced today. Mr. James offers for another term to the office in which he has rendered the people of his district a distinguished service.

It was largely through his work as Vice Chairman of the Committee on Taxation in the House that the state ad valorem tax rate for 1936 has been reduced from 77c to 62c, a total relief of 15 cents. This was done thru policies advocated by Mr. James in reducing the expense of the government and shifting the burden to those interests who have not heretofore been bearing their just proportion of the costs of government.

Mr. James advocates an Old Age Pension in accordance with the terms of the Constitutional Amendment voted by the people.

Under the rule of promotion Mr. James should succeed to the Chair-

AGED WOMEN DIE

Mrs. Ellen Rice of Milano and Mrs. Josephine Hertenberger of Cameron both 99 years of age, died Tuesday. Mrs. Rice was a native of Alabama and Mrs. Hertenberger was a native of Austria.

LEYENDECKER TESTIFIES

A. W. Leyendecker, charged with murder and driving while intoxicated is on trial in District court. He ran over and fatally injured Mrs. Lucas in Rockdale last fall. He testified in his own behalf Wednesday.

Alvin Roberts has accepted a position with Green & Boedeker retail grocery and hardware store, as manager of the hardware department.

Mrs. C. N. Dickens of Marlin is a guest of her daughter and son in law S. Kuehl.

GRAHAM GILLIS FOR RE-ELECTION AS JUDGE

Graham Gillis, Judge for the 20th Judicial District, is a candidate for the Democratic nomination in July for a second term in this office, he announced here Wednesday for publication.

Serving his first term, Judge Gillis becomes a candidate for the traditional second term in office. He was elected in 1932 and has served with distinction to himself and his district, which is composed of Milam County. The term is for four years.

Judge Gillis is a native son of Milam and the first native resident to hold this important office. As a young man he grew up in this county, sharing with its people the fortunes of the day. Into their estimation he has grown with increasing regard through

BILL ALEX BONDS FOR RE-ELECTION

Bill Alex Bonds, serving his first term as Assessor and Collector of Taxes for Milam County, has announced his candidacy for re-election to a second term. Mr. Bonds makes the following statement in connection with his announcement for a second term:

"With a grateful heart for the generous support given me by you two years ago, I now announce my candidacy for the Democratic nomination for a second term as Tax Assessor and Collector of Milam County.

"By your favor after two hard fought Primary Campaigns, I was elected to the office of Assessor and Collector and now serving my first term in that office. In keeping with

3 MISSION SITES IN MILAM UNMARKED

Three ancient Spanish Mission sites in Milam county are unmarked according to R. D. Brown who has supplied the Herald with an interesting article by Robert T. Hill, noted geologist and historian.

Due to lack of space developing in the late stages of producing this issue of the Herald the article cannot be printed. The publishers will print the story next week. In the meantime local historians can guess where these three mission sites are located in this county.

By HENRIEM HEFLEY

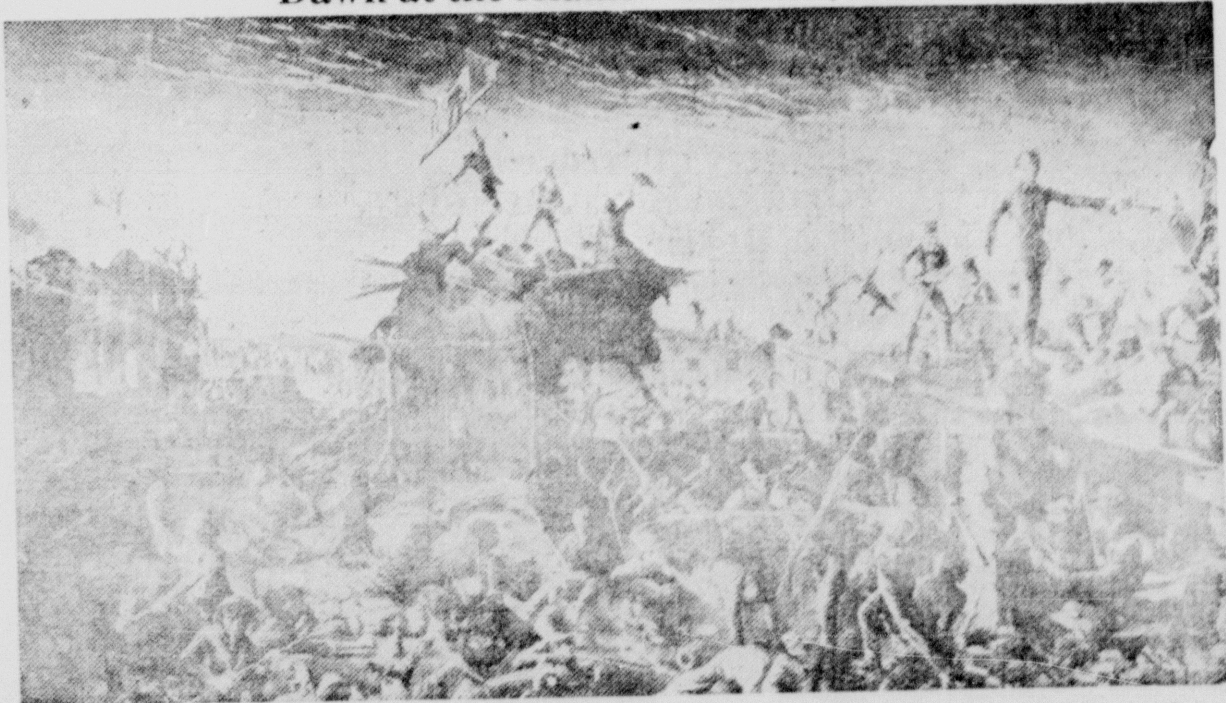

One of the most unique social affairs at the University is the annual Junior Prom, or the all-girl dance. . . . Girls borrowing tuxedos, and asking other girls to go to the dance with them as their dates . . . Some even prefer to "stag it" . . . What fun . . . Jimmy Watson's Orchestra, which furnished the music, came dressed in comical, but girlish attire. Even the bass violin wore a bonnet . . . Among the most villainous of merry-makers was Mary Newton, dressed in a tuxedo, with cane in hand, and a derby and mustache to match.

John Watson has returned to his classes after an attack of flu . . . University students have been putting on a Museum Drive, the purpose of which is to raise funds for a Texas Memorial Museum. Active workers for this cause were Giles Avriett and Patsy McGregor.

The Milam County Club met Thursday night, March 12, at 7:30 o'clock in Texas Union 301. Plans for a picnic in the near future were discussed.

Dawn at the Alamo—March 6, 1836

"I shall die like a soldier who never forgets what is due his own honor and that of his country." Shortly after William Barrett Travis penned the most heroic document in Amer-

ican history, the Alamo garrison which he commanded was put to the sword. One hundred and eighty stalwart Texans gave their lives; none survived. Perpetuated in the

tion of all Texans today to the "Cradle of Texas Liberty" is the ideal for which its defenders fought and died. Shown above is the painting which hangs in the capitol halls in

EDITORIAL

Unusual things may often be found in unexpected places. While cataloging the high school library, Miss Love has found several rare old books in our own library. Four of them were printed in 1832 and several, which appear to be older, do not contain the date of publication.

To many people a good book is very interesting, but to some it is not. Those persons who are not interested probably have not tried to become so. Without books modern civilization would soon decay, because education could not continue. Do you read enough? You will find more reading worthwhile, even if it is hard for you to form the habit. Do not wait for inspiration; create desire.

HOME ECONOMICS

The home economics girls in the first year classes have completed a week's nursery school in the department's suite in the high school.

Miss Dorothy Landon and Mary Sue Hardage in charge.

The following children attended

the school: Jesse Coward, Nancy Jane Newton, Mary Ann Brock, Billy McReed, John Ed Parnell, Dorothy Lee Foster and Martha Lee Wenner.

The girls planned and furnished the play room, planned and served the noon day meal, supervised the play, and told stories to the children.

The purpose of the nursery school, according to Miss Hardage, was to sum up the class work on child care and to allow students to observe active child play, eating habits, and emotions.

GIRLS WIN

Friday afternoon at Ad Hall, the Yoe High Girls playground ball team won from the Ad Hall team by a score of 10 to 7.

DEBATE TEAM

Helen Ryan, Caroline Chambers, Cuthrel Heath and Douglas Perrin will represent Yoe High in Rockdale Thursday March 18 in the debate finals.

Four county teams, San Gabriel, Ad Hall, Rockdale and Cameron will debate the 1936 question: "Resolved that the federal government should control the production of cotton."

OFFICE NOTES

Superintendent E. A. Perrin went to Crockett to address the School Master's Club on March 14. His subject was "School Awards."

Mr. Perrin is one of a committee of three to study school awards. He was appointed by Dean Shelby of the University for Interscholastic activities.

JUST FOR FUN

Carter B: "My girl and I are on the outs."

Clara B: "Only a lover's quarrel?"

Carter B: "No, this is serious. Nell and I got into a political discussion."

Elizabeth Jones: "My daddy has a leg made of hickory."

Joe Ed: "That is nothing. My sister has a cedar chest."

Alberta C: "Is it true, Miss Edith McGee, that you are going to be married soon?"

Edith: "Well, no, it is not. But I am very grateful for the rumor."

Mr. Batte: "So you want to become my son in law?"

Shirley Mc: "Er—not exactly. I only wanted to marry your daughter."

Ruth H: "This linament makes my arm smart."

Billy C: "Why not rub some on your head?"

Mildred G: "You are the nicest boy I have ever met."

Woodrow L: "Tell it to the Marines."

Mildred G: "I have—dozens of them."

Mothers and teachers of pupils in both the high school and Ada Henderson school had the opportunity Thursday afternoon of the regular monthly meeting of the Parent-Teachers Association, to see the kind of work the Cameron schools will enter in competition with other Milam county schools Friday and Saturday of this week.

Miss Ruth Mantor, in charge of the program, introduced Patricia Batte, Norma Jean McElwrath, Johnnie May Hays, and Milton Leech, winners in the declamation try outs, who gave their declamations.

A chorus of 25 pupils from the grammar school, accompanied by Miss Emma Pearl Clement, sang "All Through the Night."

E. A. Perrin acted as chairman of the business session until a president could be elected. Mrs. Robert Ryan was elected president and Mrs. Grady Stidham vice president. Mrs. Ryan appointed Mrs. H. H. Stedman, Mrs. B. P. Matocha and Mr. F. R. Dunlap as program committee.

An attendance count showed that the 2-Y grade room was represented by the largest number of mothers and teachers.

The next meeting of the Association will be held on April 9th.

JAMES

(Continued from page 1)

manship of the Committee on Taxation in the next Legislature. This would give him a commanding position to serve not only the people of his district but the people of the entire state.

The following statement was issued by Mr. James covering his announcement:

"TO THE PEOPLE OF THE 65TH DISTRICT:

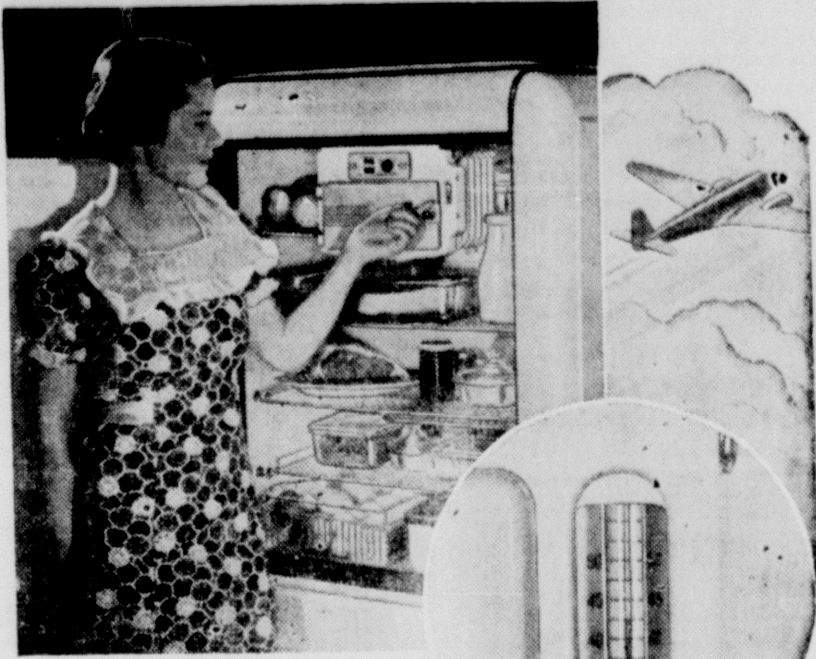

"Responding to the many inquiries that have been made, I herewith submit to my friends, the people of the 65th Floterial District of Texas, my candidacy for re-election to the House of Representatives.

"I have always measured my conception of a representative in terms of honesty and conscientious endeavor to truthfully represent the best interests of his state in the legislative halls of Texas. To that end I labored unceasingly as a member of the 43rd and 44th Legislatures and to the furtherance of that end I here rededicate myself to a program of honest endeavor and hard work in the interest of the people of Milam, Lee and Burleson counties.

"As a member of the 43rd and 44th Legislature I was constantly opposed to the levy of additional taxes on the actual necessities of life for the reason that in its final analysis such a tax would be an additional burden upon that class of people least able to bear it. I have not brought myself to the belief that the necessities of life, the actual links which bind us to existence, should be further hazarded by the levy of additional taxes. In the 45th Legislature I shall continue my opposition to tax measures on necessities of life.

"I favor an old age pension law written in the language of the Constitution; giving it to every man and woman in Texas, who has lived here the required time, and who is 65 years of age, who is not an habitual drunkard, nor an habitual criminal and who is not an inmate of a state supported institution. These men and women who have passed the 65th milestone are the survivors of a noble people who have made and built Texas. These men and women have done their part. It is not their fault

Science Ends Refrigeration "Blind Flying"

JUST AS gyroscopic stabilizers, radio direction finders and fool-proof controls have eliminated "blind flying" in commercial aviation, so has science eliminated "blind flying" for the housewife as to refrigeration temperatures and food preservation. Announcement of perfected controls and mechanism in electric refrigerators to a point where a thermometer now is built into the food compartment has just been made by Kelvinator Corporation, pioneer electric refrigerator manufacturer.

With this development, housewives can tell at a glance that food is being safely preserved. Home economists agree that this is a tremendous advancement in food preservation science, and a step which marks the highest development of the electric refrigerator as an aid to greater health and economy in the home.

that the time has come when it is hard even for the able bodied, brainy business man to make a living. These men and women deserve the modest pension voted them by the noble people of Texas last year. They have earned it and I want Texas to honor herself by paying it. I wrote and passed through the House of Representatives a bill (H. B. 46) providing for the immediate payment of the Old Age Pension.

"At all times I have given a listening ear to the voice of the laborer and have acted consistently to further the laborer's interest, believing that the government should function for the majority of the people rather than for the majority of the capital.

"I wrote, with the assistance of others, and pushed through to final

passage a resolution calling on each member of the legislature to disclose the names of all corporations or associations, if any, that give them a retainer fee. This is of course, to reveal the corporate connections of members of the Legislature. You can find this information in the House Journals.

"I wrote, with the assistance of others, the present chain store tax law, introduced and pushed to final passage.

"It is a welltaken action of logic that the longer one serves in the legislature the more efficient servant one may make. I do not propose by this statement to offer to perpetuate myself in public office. I seek only to submit that, by virtue of my service during the 43rd and 44th Legislature I am prepared to serve you better in the 45th Legislature.

"I was honored with membership on the following committees: Revenue and Taxation, Vice Chairman; Labor, vice chairman; Banks, Banking; Oil, Gas and Mining; State Affairs; Highway Motor Traffic; State Eleemosynary and Public Health Committee. If re-elected to the 45th legislature, I will, of course, as a member of these Committees, be in a position to deal in your behalf with the most important problems to confront the law making body. I respectfully ask your vote and support as a candidate for reelection."

Sincerely yours,
JESSE JAMES.

BY THE MAYOR

The week of March 29th to April 4th, inclusive, has been designated as SPRING FIRE PREVENTION CLEAN-UP WEEK.

This is Centennial Year in Texas and a Spring Clean-Up Campaign should receive the enthusiastic support of every man, woman and child. First, every citizen should have a wholesome pride in his home city, its streets, playgrounds, parks and buildings. Homes and surroundings freshly painted, with well kept lawns and gardens, increase property values and intensify community interest. Cleanliness creates cheer, courage and confidence. Secondly, because every dollar in property destroyed by fire, which is frequently the result of careless housekeeping in American homes and in the average place of business, is a serious drain upon our present economic condition. Thirdly and humanly most important, because in the past ten years entirely too many of our citizens have lost their lives due to carelessness in their daily use of fire, and the preservation of human life is an important matter.

Now, Therefore, I Chas. C. Smith, Mayor of the City of Cameron, Texas, do hereby designate the week of March 29th to April 4th, inclusive, as SPRING FIRE PREVENTION CLEAN-UP WEEK and most respectfully call upon all departments of the city, the Chamber of Commerce, Civic Clubs, Patriotic Clubs and our people in general, to take an active part in this Clean-up campaign.

In testimony whereof, I hereto sign my name and seal of office this 10th day of March, A. D., 1936.

CHAS. C. SMITH, Mayor,
Cameron, Texas.

Attest:
Dan Tyson, City Secretary.

Fuchs

(Continued from page 1)

marked with active road building, a service which will be impartial. I will bear in mind always the need for economy in public affairs."

Mr. Fuchs, in announcing at this time for re-election, says that he has kept his pledges and promises of two years ago, says that he has served to the very best of his ability and that he has been on the job full time for the good of the people whom he represented and for the people whom he hopes to serve another two years. If I am re-elected, I will conduct the affairs of the office on the same high plane, will be vitally interested in every piece of road in the two beats, and I will give the kind of service to which the tax payers are entitled, he said.

Mr. Fuchs has an enviable record as an office holder, and his work has been commendable. He has been regular and punctual in attending the Commissioners' Court, and he has been on the job without fail. He has never refused to give just and careful consideration to any problem, his friends point out.

Mr. Fuchs is a conservative and is a well thought of commissioner and citizen. He is of congenial temperament, and he has shown on many occasions his willingness to co-operate with any movement which meant for the betterment of road building and road work. He has been active to secure all possible government aid in order to carry out a program of building in the two beats. He worked to get P. W. A aid, which made possible seven miles of graveling at Burlington.

During the past two years, Mr. Fuchs found it necessary to purchase several pieces of new machinery to replace old, worn out equipment, and he takes pride in announcing that with the new equipment, he has been in position to do better work. He has been able to maintain and regrade community roads and also to do terracing work by use of his machinery.

For the support given him two years ago, Mr. Fuchs wants to express his sincere thanks and he uses this method to thank the tax payers and all citizens in the county, especially those of Precinct 1, for the spirit of co-operation during his tenure in office. He asks for active support during the forthcoming campaign, and for any word or deed in his behalf, he will be deeply grateful, he said. He promises in return, if re-elected, to give to his precinct the best possible service, and he says he will keep the word "economy" uppermost in mind, and he will serve impartially, as has been his custom, so

that all citizens may be best served. Mr. Fuchs is a son of the late H. A. Fuchs of Buckholts, who was prominent and highly respected in the community and in Milam County.

SCIENCE POINTS WAY TO PERFECT ROAST

YES, even Friend Husband can now turn out the perfect roast. The experienced cook has no advantage over the beginner.

All because today roasting meat has become a matter of mechanical precision. A better knowledge of cookery acquired through thorough research, plus the very latest in kitchen gadgets, has put this business of roasting on a scientific basis—and it's as easy as falling off the proverbial log, say the experts.

In the upper left-hand corner of the illustration above is the meat thermometer which plays a big part in this story of roasting, because it eliminates

any uncertainty as to when the roast has reached the proper degree of doneness. The steps in its use are simple, as shown by the pictures.

1. Inserting thermometer in the center of the thickest portion of a lamb roast.
2. Placing roast, with thermometer inserted, in a moderate oven (300°-350° F.)
3. Removing roast from oven when column has reached point marked "Lamb" on metal plate.
4. The perfect roast—a delight to the appetite and to the eye.

Richard Vest, Former Cameron Boy, Is Married To Miss Cornelia Ann Brooks in Saginaw, Mich.

The Herald has received the following newspaper clipping from Saginaw News, Michigan, telling of the recent marriage of Richard Vest, former well known Cameron young man and a Yoe High graduate.

The Vest family were prominent for years in Cameron. The late J. G. Vest was a cotton merchant. Mrs. Vest now lives in Houston and is a sister of Mrs. E. A. Wallace, Cameron. The wedding took place Monday, March 9:

Interesting news to her many friends here is that of the marriage of Miss Cornelia Ann Brooks, daughter of Mr. and Mrs. G. William Davis of 403 Weadock avenue, and Richard Vest, son of Mrs. Eden Vest of Hous-

ton, Texas, which took place Monday in Sao Paulo, Brazil.

Among those witnessing the ceremony were the bride's mother, Mrs. Davis, and her aunt, Miss Elsie C. Mershon, also of Saginaw, who accompanied her to Brazil.

Mrs. Vest attended Saginaw High School and graduated from Miss Bennett's School, Milbrook, N. Y., and for the past three years has been society editor of the Saginaw News. She is a member of the Chi Omega sorority and the Saginaw Junior League. Mr. Vest is a graduate of the Georgia Tech and for the past year has been representing an American cotton firm in Brazil. The young couple will reside near Sao Paulo.

Milam Is Third In Pensioners Says Storey In Austin

R. L. Storey, special investigator for the Old Age Pension administration in this district, in a special news message to the Herald, says that 10,000 applications have already been received from 12 counties.

Mr. Storey expects to be in Austin for another week before going into the field. There is approximately 1200 already filed from Milam county. Milam is third in the list number who have asked for the pension. Mr. Storey says he has received an application from a negro woman in Lockhart who is 107 years of age.

P. H. Cawley of Rockdale has been appointed to the board by the administration in Austin.

LIQUOR ELECTION IS CALLED FOR MARCH 28

An election to determine whether the sale of all liquors will be authorized, is to be held on Saturday March 28. The election was called on petitions presented to the Commissioners' Court here last Thursday.

The official ballot will read as follows:

"For authorizing the sale of all liquors."

"Against authorizing the sale of all liquors."

Beer is not involved in the election and regardless of the outcome beer will still be legal because not classified as a liquor.

An election held in December was declared void by the Attorney General because of a defective ballot. The ballot for the March 28 election is legal.

Welding

... the best way to make a perfect union of two pieces of metal is by welding them together.

... and the best way to get a more pleasing flavor and a better taste in a cigarette is by welding together the different types of tobacco ...

That is just what we do in making CHESTERFIELD Cigarettes—the three types of mild ripe home-grown tobaccos, that is tobaccos grown in this country, are welded together. Then they are welded with aromatic Turkish.

When these tobaccos are welded

together you get a combined flavor which is entirely different from any one type of tobacco.

It is this welding of the right amounts of the right kind of tobaccos that makes CHESTERFIELD a milder and better-tasting cigarette.

Texas Woman Helps Edit Big Magazine

MRS. BEN C. BALL OF DALLAS

SHE has been selected as a "typical American homemaker" by the Woman's Home Companion, and is spending two weeks in New York as one of the editors of the magazine. Her selection is part of a plan to keep the contents of the magazine closer to its average readers. Twelve "reader-editors" are being selected, each from a different section of the country. They will each spend two weeks in New York, where they will

work with the regular magazine staff on problems which confront any woman in her home, particularly in the kitchen.

Mrs. Ball went to Texas as a baby, graduated from the Hillsboro High School and then from Baylor University. In 1925 she married Mr. Ball, a banker. They have two children. Her indoor hobbies are cooking and sewing; outdoor hobbies, golf and swimming.

BURLINGTON H. D. CLUB

Every individual should have his own drinking cup, wash cloth, towel tooth brush and comb. Avoid spitting carelessly. Get plenty of fresh air and sunshine. Avoid drinking from impure places. Violating these rules often bring on disease such as tuberculosis, typhoid, and even common colds which develop into serious cases.

These rules are very important factors in public health.

The Burlington H. D. Club met Thursday March 12 with Mrs. F. Fox with 14 members and 3 visitors also having with us Miss Pearl Fulcrud, county health nurse, who gave us an interesting talk on public health.

The club has been doing quite a bit of yard work in furnishing and planting shrubs for the Parochial and public schools.

We finally decided to have our 42 party March 28. It has been postponed on account of bad weather and illness.

After the meeting adjourned. Cake and ice cream was served to all present.

Don't forget Saturday, March 28 the 42 party at Burlington public school.

For Bad Feeling

'Due to Constipation'

Get rid of constipation by taking Black-Draught as soon as you notice that bowel activity has slowed up or you begin to feel sluggish. Thousands prefer Black-Draught for the refreshing relief it has brought them. Mrs. Ray Mullins, of Lefe, Ark., writes: "My husband and I both take Theodor's Black-Draught and find it splendid for constipation, biliousness, and the disagreeable, aching, tired feeling that comes from this condition." With reference to Syrup of Black-Draught, which this mother gives her children, she says: "They like the taste and it gave such good results."

of them were designed with pleated flounces which rustled with a soft swish as the mannequins walked. The petticoat vogue was also reflected in evening gowns which were worn with pastel colored tulle foundations showing two or three inches below the hemline of the gown.

Parasols added a frivolous touch to many summer outfits. In bright printed cottons they appeared with beach costumes and in polka dotted silks they accompanied summer suits. Folding fans made of field flowers, tulle or organdy and flat oval lacquer fans only a little larger than a hand lent a glamorous air to a number of evening costumes.

Can it be that those old days that live now in memory—those days of flounced femininity, when yards and yards instead of inches went to make a costume, when color came from feathers and ribbons, instead of from drug store boxes, when, oh! well, when femininity was altogether

charming and none cared about its efficiency—can it be that those days are coming back? If so, what a revelation they will bring to the boys and girls of this generation!

A Little Lesson in Good Business

THE HERALD

Chicago Tribune Service Profits

We bring you new and tested business development methods

The duty of a newspaper to its readers is to supply accurate information. Its duty to its advertisers is to encourage sales.

On both scores, this organization is making rapid strides. Our latest move for the benefit of our merchants is the recent acquisition of Chicago Tribune Service for the exclusive use of our advertisers.

As subscribers to this most modern of business building methods, we are able to offer you unusual advertising coverage no matter what your line of business. We bring you complete and tested campaigns, proved merchandising plans, finer artwork, better copy.

That's the natural result of working with an advertising department designed to serve one of the greatest marketing centers. The same expert ability stands ready to serve you in our own columns, every day, no matter what type of business you are in.

The natural benefits of advertising in a good newspaper are augmented by the more practical, more powerful material we are now able to supply you. Big business or small, standard or unusual the ideas, plans, suggestions and advertising in Tribune Service are sure ways to increase response from your selling efforts.

Don't overlook the splendid chance to gear your business to the efficient methods our advertising department is in position to supply. The latest copy of Tribune Service will be of interest to you. See it in our office today or ask us to bring a copy to you.

Kennedy

(Continued from page 1)

to point with pride to a record of unusual success as sheriff of Milam County. A country boy, growing up in Milam county, knowing her people and understanding her needs, Kennedy found no difficulty in getting cooperation. All he had to do was to ask his neighbors and the kind of helpful cooperation on which all successes as peace officers are based, was forthcoming.

In making his announcement for re-election, Mr. Kennedy known to thousands as "Max," expressed his deep appreciation for the help he has had in office. He thanks the precinct peace officers and their deputies and all officials for their co-operation.

His first term thus far has been one of unusual experience. He has met and solved many difficulties, has often faced stern duty as a good peace officer must and will; has never turned back from the straight path of right; has respected his oath of office and kept his promise to the people. No official could do better, his friends point out.

Mr. Kennedy's capacity for friendship and ability to get along and co-operate have helped him to succeed. He has solved many cases, made many arrests and secured scores of convictions. Some of the cases required more than the average detective ability and Mr. Kennedy has found much success in this way.

He is asking a second term. In the campaign two years ago he asked for an opportunity to serve in this office. He feels deeply grateful to the people for having given him the opportunity. By reason of his experience he feels that in the coming term he can serve the people better. He pledges them his best efforts and asks their continued aid and co-operation.

Mr. Kennedy plans to see the voters this summer and ask them for their vote again for a second term. He asks his friends over the county to lend their aid and he assures them in advance that he will pay back in service to compensate the people for their expressed confidence.

"I will always be grateful to the people of this county," said the affable and friendly sheriff, in making his announcement. Sheriff Kennedy has had no serious trouble, has had no difficulties with people and is proud of that fact; proud that his authority has been respected and that he has respected the rights of others. He proposes to continue as the good neighbor in office, a friendly sheriff, a comrade and a helpful citizen.

Rev. W. O. Wright, for several years pastor of the First Baptist church of Caldwell, preached at the morning and evening services of the First Baptist church in this city Sunday.

Gillis

(Continued from Page 1)

all the years and now holds the highest office within the gift of his home people.

Judge Gillis is known throughout Texas, far beyond the borders of his own district. During his brief first term, it has come to him to serve in other districts on recused dockets and thus others have come to know him even as the people among whom he has lived through the years.

In preparation for his work, early in life, he took up the study of law, first teaching in public schools. Later he served the county as Superintendent of Public Instruction. For years prior to his election as District Judge he was a distinguished member of the Bar. Into his life work has been crowded years of law study which when combined with his personality and sense of justice, makes him an outstanding man of the Bench in Texas.

Not only has Graham Gillis found a large place of service in the confidence and trust of the people as a public official, the history of the years that paralleled his life, owes much to his contributions in citizenship, for he has been active, and his has been the helpful influence in every phase of life.

This announcement of his candidacy for a second term will be received with general approval over the district. Judge Gillis plans to make his campaign in the summer as time permits from his duties on the bench. He appreciates his friends and the confidence of the people he now serves. His past performance is his guarantee of fidelity to duty and a first concern for the people, for the law and society.

During his first term Judge Gillis has had a pleasant relationship with the Bar of the County and with the large number who have served upon the juries and the Grand Juries. His administration has been one to express a wholesome co-operation and his service as judge has brought to him many additional friends. Judge

Gillis finds time to serve in many ways, in church and civic affairs. He is a thorough Democrat and in recent years has found a large place of service in capacities of leadership for a better state and a better nation.

Friend and supporters say he represents an ideal combination of character and talent for the place he now holds and express the hope that it will be their privilege to see him serve many years in this office for which his life work has so well equipped him.

Judge Gillis asks his neighbors and friends to lend their support to his candidacy for another term in this office, assuring each one in advance that the call of duty will find him ever ready to serve and work for the common betterment of the District and state.

the time honored Democratic custom I am now asking for a second term.

"As you know the consolidation of these two offices into one office became effective during the term which I am serving and I have had the responsibility of setting up the office system and organization to carry on the duties of the consolidated office. I have tried to do this in a way that would serve the people efficiently and well.

"Because of the experience gained during this term I feel that I am in

a position to give you better and more satisfactory service for another term.

"The Commissioners' Court has recently provided new quarters for the Tax Assessor and Collector in the basement of the Court House and the office is now open for business in these new quarters. With the added facilities and comforts of the new office I feel that I can give you better service in the future than you have received in the past, and I desire another term in which to demonstrate to you my gratitude and appreciation for your past generosity.

"I assure you that your vote and influence in my behalf will be deeply and sincerely appreciated."

Gratefully yours,
BILL ALEX BONDS.

John Deere KL Cultivator

THE STRONGLY-BUILT CULTIVATOR
THAT DOES GOOD WORK IN NAR-
ROW OR WIDE ROWS

The John Deere KL is just the right cultivator for you if you want one that will do high quality work in a variety of row crops. It can be quickly and easily adjusted to any width of row from 30 to 48 inches.

You will like the easy handling of the KL. You can quickly raise or lower rigs, fix depth, space rigs, regulate shovels or sweeps, and dodge in crooked rows—from the seat, without stopping the team. The John Deere lever spread arch holds the rigs rigidly at the width set with the lever.

You'll like the sturdy construction of the KL—axle parts are heavy and strong; the frame holds its shape—will not sag.

Be ready with a new KL this season.

MARCHES ON!

A 1926 model car popping along is certainly a true picture of a "has-been." Contrast it with the streamlined models of today. Compare its performance. It fades out of the picture . . . outmoded and obsolete.

And so it is with gas ranges. In their manufacture science and engineering have wrought advancements just as striking as in the automobile industry. Appearance, structural details and performance have been radically improved, creating a new standard in a cooking appliance. Without this modern cooking appliance no kitchen—no matter how modern its architecture and other appointments may be—can truthfully be called modern unless its range is a truly modern gas range!

BANKERS ARRANGING REGIONAL MEETINGS

Studying New Legal and Economic Conditions Affecting Bank Management

STRESS PUBLIC RELATIONS

American Bankers Association Sponsor of Meetings as Part of Nationwide Program of Banking Development

PHILADELPHIA.—Fifteen hundred bankers from fifteen eastern states met here in January in a two day conference devoted to discussions on legislative, managerial, operating and public relations problems of the banking business. This was the first of a series of meetings planned by the American Bankers Association in its nationwide program of banking development under the leadership of Robert V. Fleming, president of the association. Similar conferences will be held in southern and western sections of the country.

"It is the purpose of these working conferences to bring to association members and other bankers a thorough knowledge of the changes in banking laws and rules, provide discussion of better public relations so that there shall be greater cooperation and understanding between the banker and his customers, and to give opportunity for a survey of the problems incident to the Government's competition with our chartered institutions," Mr. Fleming said in opening the meeting.

To Help Government Quit Banking

The discussions at the conference showed that the bankers are ready to make it easier for the Government to relinquish many of its emergency financial services as soon as possible by demonstrating how their institutions are able to render full banking facilities to the public on sound lines.

Bankers generally have recognized that in times of emergency the Government had to come to the assistance of the people where chartered institutions were unable to do so on account of such conditions, Mr. Fleming said. They also realize that possibly many functions which the Government is performing are of a nature which cannot be handled by chartered institutions under the principles of sound banking.

On the other hand, he said, "we should survey all emergency lending measures of the Government to judge which of these activities can be properly and soundly taken over by banks in their respective communities."

The attending bankers devoted time to considering the Banking Act of 1935 and the many related regulations and discretionary powers under the Federal law. These were explained by O. Howard Wolfe of Philadelphia, who said he had made a count of the various places in the act where provision is made for discretionary power to be exercised by government officials through regulations.

"Confining the count only to the sections which affect practically all of us, I found there are forty-eight places where discretionary power is given," he said. "It is a problem of no mean importance, therefore, to master banking law as it is today or may be tomorrow."

Bank Taxation and Solvency

Bank taxation was discussed by Charles H. Mylander of Columbus, Ohio, who declared that "the average American is vitally interested in taxation of banks because solvency may depend to a large degree upon the way in which the taxing power is exercised upon them."

To prove his point he cited earnings figures which showed that, in the year ended June 30, 1934, "for the United States as a whole, national banks used \$14.89 out of each \$100 of net operating earnings, before taxes, in payment of taxes; but in seven of the twelve Federal Reserve Districts the percentage of earnings used for taxes was above the average. It was in practically these same seven districts that the greatest number of bank failures occurred in those hectic years from 1920 to 1933."

As an example of how far taxation can go, he quoted official figures showing that in 1934 a large number of small state banks paid on the average \$34.20 of every \$100 of operating profits for taxes. Mr. Mylander urged that there be "brought home to the average American the self-evident truth that banks, dealing as they do only in intangible property, are not proper subjects for property taxation; that the true measure of a bank's ability to pay taxes is the earnings it can make."

WHEN BANK CROOKS SHOW PREFERENCES

The American Bankers Association reports that non-member banks suffer twice the percentage of burglaries and hold-up robberies as compared with members. Member banks display a sign showing that they receive the protection of the association's detective agents, who cause the arrest of from 150 to 400 bank crooks every year, the organization, which is a non-profit body, says.

"Professional criminals often boast of having sense enough to dodge the far-reaching system of man hunting available to members, so long as there are other banks without this protection," it says. "They recognize that once on the record of the Association's Protective Department, they must pay for every crime with which they can be identified. Detainer warrants have followed them from place to place so that penal servitude for one crime would not exonerate other offenses."

FARM STUDENTS SEE HOUSTON STOCK SHOW

E. D. Parnell and 5 boys attended the Houston Fat Stock Show March 6. The boys were Charles Roy Law, Johnnie Glaser, Chas. Joe Maddox, James Leath and A. W. Lucas. The boys carried 210 fryers and broilers and a hog to the show. One pair of broilers took first place, two pairs of fryers took first and second. All of the chickens brought a fancy price when auctioned off.

The judging team consisting of Johnnie Glaser, Chas. Joe Maddox and A. W. Lucas won third place in sweep judging.

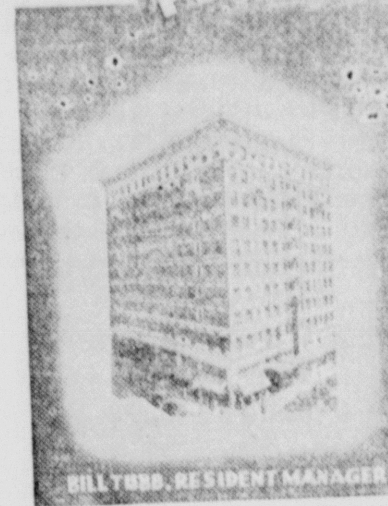

The boys which were represented by poultry and livestock were J. L. Lamkin—Fryers, Chas. Roy Law—Fryers, J. Wm. Baldwin—Broilers, Adolph Kretschmire—Broilers, James Leath—1 hog, Woodrow Schigut—1 hog, and A. W. Lucas and Bill story who had fryers and broilers.

The trip was enjoyed by all. And we hope to be represented as well next year and for years to come.

HEY!
I WANT TO ASK YOU A COUPLE OF QUESTIONS

1. "Did you ever watch a photographer making a picture on a cloudy day?"

"If you did you saw him giving his camera more 'time.' He does that because the 'eye' of the camera works harder and takes longer to 'get' the picture. When there is good light the camera 'gets' the picture quickly.

"Your eyes work the same way. When the light is poor your eyes work harder and longer to 'get' the words on the page, the stitches in your sewing. Every time your eyes move from one object to another they must adjust themselves to 'get' the picture you want.

"This constant movement of the eyes tires them... wears your nerves... weakens your eyes... causes headaches, and makes you irritable.

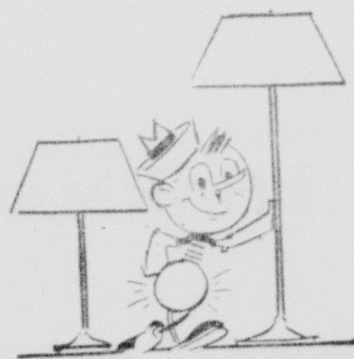

"Good light lets your eyes work without tiring. Remember that your eyes were made to see by daylight. You can have light that is better than daylight. It saves your eyes and your temper... beautifies your home.

2. "Have you had a 'Sight-meter Test' made in your home?"

"I wish you would. It is interesting. You will see how simple it is to have Better Light. You will thank me for the tip, and I can serve you better.

"Ask at our office for the 'Sight-meter Test.' It's Free!

"Have you seen these New Better Sight Lamps? I recommend them for all home lighting needs. See them today at our store, or at your Dealer's."

News From MINERVA

MISS FLORENCE HUBERT

Friends over the state were grieved to hear of the death of Miss Florence Hubert, 58, on Wednesday, March 11, in El Paso. Miss Hubert, lovingly known as Miss Florence, was born in Minerva on August 6, 1877, daughter of Mr. and Mrs. F. W. R. Hubert, a prominent family of this county and state. She became a member of the Church of Christ at a very early age, and was a faithful member throughout her life. Her many deeds of service and kindness have endeared her to those with whom she has come in contact. She attended Sam Houston Normal Institute and later the University of

Texas. She began her teaching career in 1897 and was teaching in El Paso at the time of her death. She had taught in Minerva, New Berlin (near San Antonio), Rockdale and El Paso schools. Her sister, Mrs. C. W. McBurnett of Dallas was with her during the last two weeks of her illness and accompanied her body home. Funeral services were held in El Paso Thursday morning. Her body arrived in Cameron at 12:11 p. m. Friday where relatives and friends were gathered to carry her to her last resting place. Funeral services were conducted at the Minerva cemetery by Rev. A. L. Dodd, pastor of the church of Christ in Cameron whose home is in Minerva. A special choir sang the songs. Miss Hubert is survived by her parents, Mr. and Mrs. F. W. R. Hubert; two sisters, Mrs. D. F. Robinson of Minerva and Mrs. C. W. McBurnett of Dallas; three brothers, Frank and Ralph Hubert of Minerva

John Deere KL Cultivator

THE STRONGLY-BUILT CULTIVATOR THAT DOES GOOD WORK IN NARROW OR WIDE ROWS

The John Deere KL is just the right cultivator for you if you want one cultivator that will do high quality work in a variety of row crops. It can be quickly and easily adjusted to any width of row from 30 to 48 inches.

You will like the easy handling of the KL. You can quickly raise or lower rigs, fix depth, space rigs, regulate shovels or sweeps, and dodge in crooked rows—from the seat, without stopping the team. The John Deere lever spread arch holds the rigs rigidly at the width set with the lever.

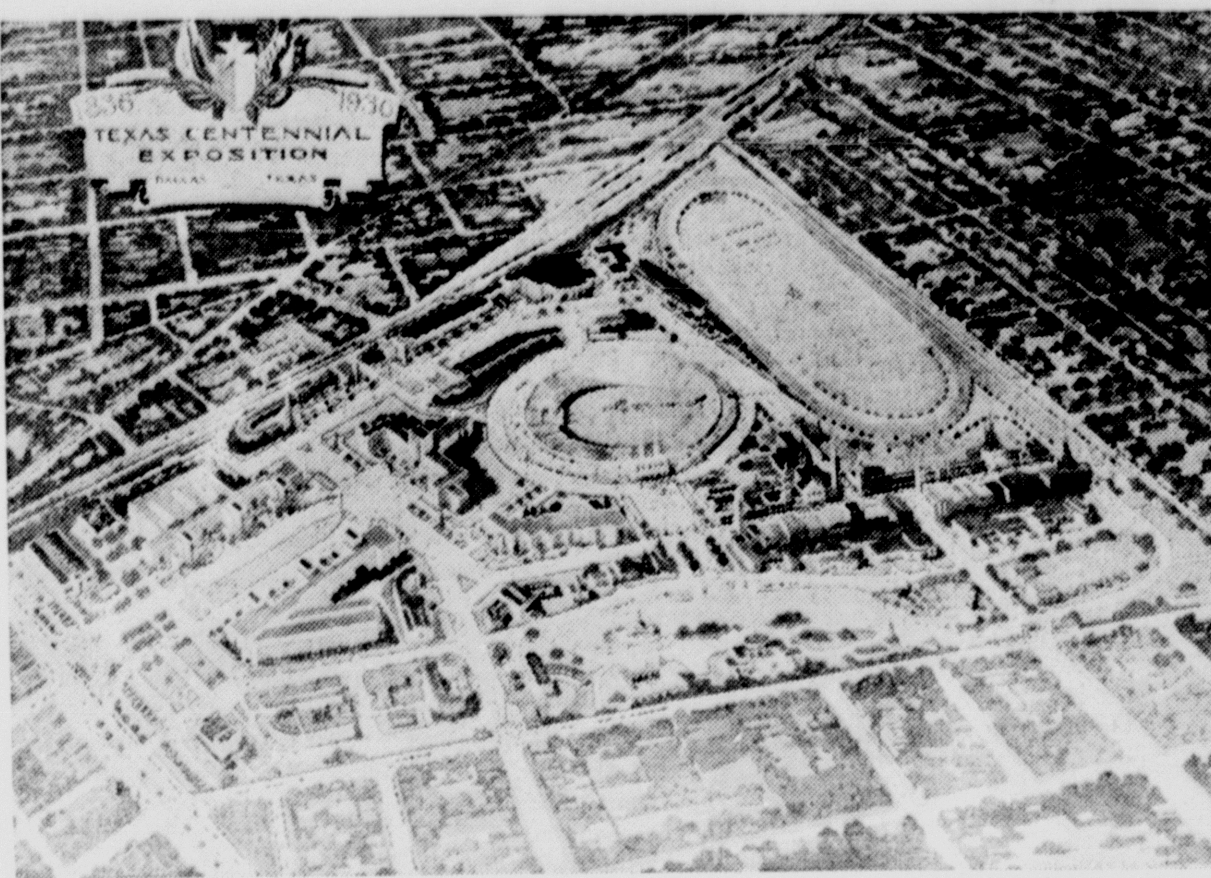

You'll like the sturdy construction of the KL—axle parts are heavy and strong; the frame holds its shape—will not sag.

Be ready with a new KL this season.

The Rockdale Junior Boys' Softball team won an interesting game from Minerva Thursday afternoon by a score of 8 to 1. The game was hard fought until the tenth inning, the score being tied at the end of the seventh. The Minerva boys scored a run in the third inning but the Rockdale boys came back to tie the score in the fifth inning. In the tenth inning the Rockdale boys scored seven runs on hits and errors. Minerva failed to connect with the ball in their last time to bat. J. Doss of Rockdale and Pratt of Minerva were the only boys to hit for extra bases.

Minerva will participate in the county meet which will be held at Rockdale Friday and Saturday.

Mrs. A. W. McCullin was hostess to the Ladies' Missionary Society on Monday afternoon. The St. Patrick's theme was carried out in decorations, contests and refreshments. Shamrock was used in decorating the living room. As each guest arrived she was given a ribbon to wear. The songs "Where the River Shannon Flows" and "My Wild Irish Rose" were sung with Mrs. Clarence accompanying at the piano. Mrs. B. F. Cone, Bible teacher, then presented the Bible lesson. Each member was given a point on the link in the Bible contest. A helpful outline was given on a portion of the four gospels. A pleasant social hour followed. In the St. Patrick's contest, Mrs. J. C. Wallace was lucky contestant and received a bag of potatoes. An iced course carrying out the green color scheme was served to the following guests: Mesdames J. C. Wallace, Clarence Harris, G. C. Lucas, Walton Day, B. F. Cone, Miss Jennie Cone and the hostess. Plate favors were shamrocks.

NEW TYPE REPORT OF PUPILS PROGRESS

Heretofore, the report cards have gone out showing grades made in different subjects taught by different teachers on the same card.

We are now attempting to give a more comprehensive and a more detailed account of the work done by each child and of the entire class of which he is a member.

Every class division of work will carry with it a report; that is the eighth grade algebra class will be handed a report of the entire class with the distribution of the various grades that go to make up a six-weeks grade in algebra. The teacher of algebra will hand that report out.

This type of report will be the same for other subjects.

This report goes further than the individual subject report card. It carries with it also, as has been stated, the class distribution of grades, thereby making a graph on one sheet showing the progress of the entire class.

It requires a great deal of work on the part of the teacher and a great deal of selected pupil aid in making this type of report; however, it will be much less work for the next report periods due to already having the names and forms made.

School records of class is and ought to be an open book to teachers, parents and students. The new type re-

port will show pupil progress, and comparisons can be made as to individual progress, as to progress in various subjects, and a comparative method of rating pupils by teachers. There will be individual differences as long as time, but by close study, examination, and comparison, we might discover why some one will make a higher rating than his neighbor, thereby being more able to raise the standard of work of more individuals.

BASKET BALL GIRLS HONORED WITH PARTY

On Thursday evening about 7:30 o'clock, the San Gabriel Basketball girls, with their invited guests, arrived at the home of their coach, Miss Lucille Camp, for a party given in their honor.

At the beginning of the party, some very interesting games and contests such as Michigan Rummy, 42, various card games were entered into. Later on in the night "Our Ole" Faithfuls, Leonard Brown, Ira Partain and George Locklin lightened our hearts with their remarkable music, and the couples gathered to the front porch for a grand time of dancing. After some period of time the happy go lucky group entered the living room once more for the most interesting event of the evening which was the receiving of the delicious French Doughnuts and hot chocolate. When every one had finished, the musicians again picked up their instruments and started the merry group to dancing once more. Each person was having

such a splendid time that they didn't realize the time was passing so swiftly until the "grand old strings" poured out that familiar old tune "Home Sweet Home."

Every one had a grand time and left Miss Camp wishing her many more favorable basketball seasons.

We, the basketball girls, wish to express our appreciation to Miss Camp for her patience and kindness during the season of 1935-'36. Some of us will be absent from your team next year, but remember we'll not be so far away and will boost for you every day.

May I take this opportunity to express, not only to one girl, but to each of you, that it was more than a pleasure to work with you as your captain. You don't know just how much I appreciate your kindness to me.

Now that the season has gone for this year, and the next one not far from view, keep up your spirits with laughter and cheer; and I'll be rooting for you.

"Captain" Fulcher.

RESULTS OF TRY-OUTS

The Extemporaneous Speaking try-outs were held Monday, March 9 in the English I and II room. Very interesting talks were made concerning Texas History and the Winners were Helen King and McGinnis Clark.

The High School Ready-Writers contest was held Friday March 13th. Aileen Faulkner was declared winner in this group.

THE LEGEND OF FULCHER BLUFF

Some nations, some states boast of legends heroic, But others can not tell of the death of Mercer, Who died by Indian's hands so many years ago, So let us praise this hero of Pioneer Texas. Some tell of massacres, others of scalping knives, But none can tell of the tragedy of the bluff Of which Lone Star Texas alone can boast. The history of those days, rather dark and gray, No transportation or ways to tell our neighbors Of the approaching enemies that all dread much; Nevertheless, accept this, Mercer died in pain. Now, my dear friend, step into his heroic shoes, What would or could you do, if you were being chased By Indians fierce and wild, with sharpest tomahawks, And arrows, and bows drawn by arms so tanned and strong, When you only possessed swift feet and loud voice? Picture a bluff, a deep pouring river below, A river winding through forests filled with wild beasts; Will you be killed by Indians or willingly go To die for your state still heavily forested And sparsely inhabited with civilized folk? So on the green banks of River San Gabriel At a spot which all refer to as Fulcher's Bluff Hero Peter Mercer died, suicide or killed, This to be found when the great, great waters are stilled. Sound Loaning and Investment Policies

—constitute the fundamental means by which your bank keeps your deposits secure.

THEY enable your bank to keep its deposited funds helpfully and profitably employed, and at the same time constantly available to repay its depositors exactly in accordance with its promises.

They enable your bank also to cover the major part of operating costs of rendering services to customers and in addition to set aside reserves as increased protection for deposits.

Furthermore it is the aim of this bank, at all times, not only to find active employment for its loanable funds, but also to direct them thoughtfully and fairly into such channels as will best serve the public welfare.

Labor State, will swing into the Democratic line up again, for they are friendly with the administration . . . and . . . La Follette . . . and Wisconsin . . . what will they do . . . they will jump on the "band wagon" also for the "ride."

Silver States For F. D.

The Rocky Mountain States—the famous mining states of the country—well Jack tells you . . . would anybody vote against the only man that gave these people the first break that they have had in 45 years . . . then he explains . . . Montana, Idaho, Utah, Nevada, New Mexico and Arizona will cast their vote for Franklin D. due to the fact that the largest increase in the price of silver and gold . . . mines are operating today in their respective states, that have been closed for years, and it was through the great organization of the R. F. C. that millions of dollars was loaned to little operators . . . and everywhere . . . from the Rio Grande to the Crows Nest Country, miners for the first time in years, are singing, "Happy Days are Here Again."

Saved National Forests

The great forest and lumber states—Oregon and Washington . . . well, look at the great work of the CCC camps in this section of the country—the first time in years that there have been no destructive fires—no calamities in the virgin forests . . . there have been other presidents before Franklin D. Jack tells you . . . but did any of them ever conceive the idea of the perpetual forest proposition . . . no—it is strictly a Roosevelt idea . . . and the people of the northwest are really for him for this one thing alone.

Labor for Roosevelt

The seething industrial centers are all for Roosevelt—especially the great organized labor "spots" for Roosevelt . . . Jack tells you is the first president that has ever given labor the real break that it has received under his administration.

No Break in South
Of course the "Solid South" will again "line up" for Democracy . . . and as Jack traveled through the entire state of Georgia he tells you that Talmadge has not the chance of the "snow ball" for the outside people do not realize that the followers of Talmadge are more of the "never work" tenant class of farmers . . . who will

listen to anyone that offers them a mansion, a Packard and a million dollars for nothing . . . then Jack tells you that in calling on more than 50 Georgia papers he found only six editors that were not supporting the President . . . and these editors were in very isolated sections of the state . . . then Jack goes farther on to explain that everywhere in Georgia the people praise Roosevelt and are proud to have the "little white house" at Warm Springs.

Long Was Factor

The death of Huey Long did not stop the craze of the Share the Wealth movement, but the people of Louisiana did show that they were behind the late Senator when they voted the Long candidates into office by a majority of close to 200,000.

The average voter of Louisiana is for the Roosevelt administration Jack tells you . . . and as the hatchet has been buried again in that state by Mayor Walmsey of New Orleans . . . Jack tells you that the Pelican State is on the band wagon.

Townsend Plan Racket

The Townsend plan, according to Jack, is just another "Racket," being promoted on a large scale. It is an impossibility—yet he tells you that after the Congressional investigation it will do well for the average candidate to openly state that he is for some kind of a real social pension plan—one that will be eliminated of the average "red tape" for, with the elderly people still holding a large vote, they must be given due consideration . . . then Jack tells you that Townsend has become a multi-millionaire since his movement has gotten under way, and although a schemers dream, it has become a serious menace to the entire country.

No Third Party

A third party will not be in the running this time, says Jack, for there is not a "fiddler's" chance for any candidate that they may choose . . . Al Smith is out of the question . . . the socialistic movement has not gained ground enough for Thomas . . . Herbert Hoover is a back number . . . and labor has not a candidate to place in the field that is well enough known to the voters of the country at this time. Looking over the situation very closely, Jack tells you . . . Landon, Borah and Knox all have plenty of money behind them for the

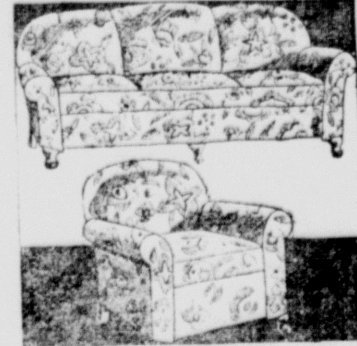

Republican convention . . . The Standard Oil is known to be pushing Landon as well as William Randolph Hearst and his famous "buy American" papers.

Interests Back Knox

Borah has the common vote of the convention . . . and Knox will have the moneyed interests backing him . . . for it is rumored that should

Knox get the nomination, Gannett also publisher of more than 20 papers, would be the vice presidential candidate, but as Jack studies the whole thing in a lump, he tells you the convention will deadlock . . . a "dark horse" will get it . . . and he will not have a chance against Roosevelt—the next president of the country.

Chevrolet's high-compression valve-in-head engine gives economy without equal!

FOR ECONOMICAL TRANSPORTATION

Every test proves it's more economical . . . Every Chevrolet owner knows it's more economical . . . And every person will readily understand these simple A-B-C reasons why it is more economical

The Chevrolet engine is the most economical automobile engine produced today, because (1) it is a six-cylinder engine, and (2) it is a valve-in-head six-cylinder engine. . . . Its six cylinders use less gas and oil—in fact, use the least gas and oil—because six cylinders are the most economical combination used in modern automobiles. . . . Its valve-in-head design cuts gasoline consumption still lower because there is less loss of heat through the walls of the combustion chamber in valve-in-head engines, and the advanced construction of the Chevrolet engine gives maximum heat (or power) saving. . . . Most important of all, Chevrolet's more efficient cooling system, pressure stream oiling and the greater accessibility of all working parts result in more dependable operation, over a longer period of time, with the lowest maintenance costs.

DR. FRANK B. KING DIES IN HOUSTON

News of the death of a former Milam County citizen, Dr. Frank Bozeman King, 72, of Houston, has been received here.

Dr. King, prominent Houston physician, died suddenly at 10 p. m. Saturday from a heart attack, 10 hours after the death of a grandson, Maurice J. Sullivan, 23.

Friends expressed the belief the aged physician was unable to withstand the shock of his grandson's death, which occurred at noon Saturday at St. Joseph's infirmary.

Dr. King was a distinguished physician and his career in Houston was closely linked with the city's development along medical lines.

Dr. King was born in Milam county, the son of Kenneth K. King and Elizabeth Letcher King. Dr. King early developed an interest in medicine. He went to Rockdale, where he spent a year and a half working in a drug store, studying at night with an aged physician. He went to Louisville, Ky., in 1881 and in 1884 was graduated with honors. The young doctor returned to Texas and prac-

ticed in various parts of the state before going to Houston in 1894.

Mrs. Leonard Isaacs of Rockdale, a sister, is among the survivors of Dr. King.

Double funeral services were held in Houston, Monday for Dr. King and his grand son, Maurice Sullivan, Jr. Burial was made in Houston.

W. A. HARRIS, 56 DIES IN ROCKDALE

Funeral services for W. A. Harris, 56, of Rockdale were held on Friday in Rockdale where interment was made. Mr. Harris was the father of Mrs. A. C. Balhorn of this city.

Mr. Harris was well-known in Rockdale and over this county, where he had lived for more than forty years. He was born in Corinth, Mississippi, and came to Milam county with his parents, Mr. and Mrs. R. E. Harris when eight years of age.

For many years he had engaged in the transfer and ice business and was active in both at the time of his death. He died on Wednesday night, March 11.

Surviving are his widow of Rockdale and his daughter, Mrs. Balhorn of this city.

HISTORY CLUB

The home of Mr. and Mrs. W. E. Gaither was the scene of a delightful entertainment for the Cameron History Club last week. Each member invited a guest.

The beauty of the home was enhanced by spring flowers. Mrs. Howell, wife of Will Howell of Bryan who has been in foreign service for a number of years, was asked to tell of her travels and experiences while abroad. Mrs. Howell is a finished musician, and studied while abroad, and talked as interestingly of her travels as of music. She spoke of the customs and ideas of different foreign nations in regard to their ideas of America and Americans.

Mrs. J. C. Martin and Mrs. Tom Denson greeted callers at the door, and Mrs. Gaither presented them to her special guest, Mrs. Howell. Mrs. S. A. Cottle and Mrs. James Coleman asked guests to the diningroom where Mrs. J. C. Culpepper poured tea from the silver service, and Mrs. Stanley Swift and Miss Winnie Henderson assisted in serving a plate of dainties. Mrs. Jeff T. Kemp, historian of the club, welcomed the honor guest and friends in attendance.

Mr. and Mrs. Howell have returned to Texas and are now building a home in Bryan, saying that Texas is the only place to call home, and rear a family. Mr. and Mrs. Howell have three interesting girls.

Clean Up and Fire Prevention Week Is Proclaimed By Mayor

PROCLAMATION BY THE MAYOR

The week of March 29th to April 4th, inclusive, has been designated as SPRING FIRE PREVENTION CLEAN-UP WEEK.

This is Centennial Year in Texas and a Spring Clean-Up Campaign should receive the enthusiastic support of every man, woman and child. First, every citizen should have a wholesome pride in his home city, its streets, playgrounds, parks and buildings. Homes and surroundings freshly painted, with well kept lawns and gardens, increase property values and intensify community interest. Cleanliness creates cheer, courage and confidence. Secondly, because every dollar in property destroyed by fire, which is frequently the result of careless housekeeping in American homes and in the average place of business, is a serious drain upon our present economic condition. Thirdly and humanly most important, because in the past ten years entirely too many of our citizens have lost their lives due to carelessness in their daily use of fire, and the preservation of human life is an important matter.

Now, Therefore, I Chas. C. Smith, Mayor of the City of Cameron, Texas, do hereby designate the week of March 29th to April 4th, inclusive, as SPRING FIRE PREVENTION CLEAN-UP WEEK and most respectfully call upon all departments of the city, the Chamber of Commerce, Civic Clubs, Patriotic Clubs and our people in general, to take an active part in this Clean-up campaign.

In testimony whereof, I hereto sign my name and seal of office this 10th day of March, A. D. 1936.

CHAS. C. SMITH, Mayor,
Cameron, Texas.

Dan Tyson, City Secretary.

The FARMALL Way is the Modern way to plant Cotton

The McCormick-Deering Farmall 12 Tractor and F-67 Planter mounted on it has made a big hit with cotton growers. The F-67 is a 2-row, direct connected, power driven planter, easy to mount or remove from the tractor. Each planting unit follows the ground independently of the other, assuring uniform planting depth regardless of variation of height of the beds.

Seeding mechanism is thrown into or out of gear automatically. A clutch protects it

against damage should hard substances get mixed with the seed. Hoppers have a large capacity and are of the single seed plate type. Regular plates permit 13, 19, 27, 36 or 40 pounds of seed to the acre; special seed plates increase this to 50 to 75 pounds an acre. Corn and Kafir corn plates are supplied regularly and equipment can be obtained for planting beans, peas, peanuts, and other seeds.

Let us show you this McCormick-Deering Farmall Planter.

News From Curry

We, the teachers and children of Curry school, wish to thank Mr. Kelly, who donated seven pecan trees and two black walnuts to our school. They were planted several weeks ago and are living.

We also want to thank the Home Demonstration Club who gave us the two burner oil stove, which we use for cooking a good meal almost every day.

The Home Demonstration Club bought shrubs to beautify our school. Mr. and Mrs. John House, Mrs. Geo. Leath, and daughter, Virginia Leath, planted the shrubs Saturday March 14. We wish to thank them also.

Friday March 13, the Hoyte School visited us to play base ball. Our disappointment was that we lost the game.

Annie Lou Marecek visited Lillian Sniller Sunday.

On the sick list this week are Mrs. Steve Marecek, Wilma Angell, James Richard Ponder, Pep and Frank Majek, Clayton Baker and Thomas Adams.

We are sorry to see Lillian Shiller leave our community. She is going to move to Taylor this week.

Mr. and Mrs. William Biskup and Children of Cameron and Mrs. Joe Biskup of Elm Ridge visited Mr. and Mrs. Fred Biskup Sunday.

There will be a plate super at Curry school April 3. The Home Demonstration Club is trying to make money enough to send a member to the Short Course.

Miss Vance Tindall spent Saturday night with Miss Lorene Rosky.

Misses Doris Biskup, Bonelle and Murtis Tindall, Lorene Rosky and Irene Tindall spent Sunday in the home of Mr. and Mrs. Ed Tindall.

Mary Beth Price spent Sunday with her grandmother, Mrs. M. W. Price in Cameron. Mrs. Sam Brewer was a San Marcos visitor over the week end.

Charlie Porubsky and family visited in the Joe Batla home Saturday.

Miss Viola Horlica visited in Waco Saturday.

Mr. and Mrs. Roy Jackson and children of Copperas Cove, visited in the Cloud Bailey home last week.

Mr. and Mrs. Cloud Bailey and family spent Sunday with Mrs. Dycus at Hoyte.

Miss Frances Hughes spent Sunday with her sister in Cameron.

Leo Larza visited Willie Porubsky Sunday.

Mr. and Mrs. H. A. Fatheree visited their daughter, Mrs. Mattie Davis Sunday.

Mrs. G. W. Fatheree of Lott visited Mrs. Davis Sunday.

Robert and Elby Glenn Fikes spent Saturday night with their grandparents, Mr. and Mrs. Will Hughes.

Virginia Leath visited Mary Jane and Hazel Jean Lowe.

We have several new pupils in our school. Mary Alta and Wilma Angel came from Cameron. Neal and Claud Bailey came from North Elm.

The health nurse brought her scales to our school Wednesday. She checked our weights and found that every child had gained.

LEISURE 42 CLUB

Members of the Leisure 42 club were hostesses to husbands at the home of Mrs. L. F. Slama Monday, March 16th. Mrs. L. F. Slama and Mr. Leo Laake made high scores for ladies and gentlemen and Mrs. Vince Leskar and Mr. Lincoln Mondrik made low.

The ladies served a delightful refreshment plate of sandwiches, doughnuts and coffee. Plate favors were tiny buttoners. Visitors present besides club member's families were Mr. and Mrs. Michalka.

Mrs. Arthur Aikin returned Sunday from Houston where she visited her daughter, Mrs. F. B. Lafosse last week.

Mr. and Mrs. R. G. Grabein have returned from a few days trip to Galveston.

Lady Took Cardui

When Weak, Nervous

"I can't say enough for Cardui if I talked all day," enthusiastically writes Mrs. L. H. Caldwell, of Statesville, N. C. "I have used Cardui at intervals for twenty-five years," she adds. "My trouble in the beginning was weakness and nervousness. I read of Cardui in a newspaper and decided right then to try it. It seemed before I had taken half a bottle of Cardui I was stronger and was soon up and around."

Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician.

BANK CHARTERING POLICY REVIEWED

State Official Declares Correct Principles in Licensing Banks Are Essential for Sound Banking Conditions

PHILADELPHIA. — Sound public policy in chartering banks was discussed by Carl K. Withers, Commissioner of Banking and Insurance of the State of New Jersey, before the Eastern Conference on Banking Service, held here recently under the auspices of the American Bankers Association. He declared that "few questions bearing on the future stability and security of our banking systems loom as more important than that of a sound policy to be pursued in the chartering of banks."

Alluding to competitive policies of both state and national banking authorities to charter the most banks in the past, he said that "this country was over-banked, and that aside from any other consideration, economic or otherwise, this condition was brought about largely through an unwise, unsafe and unthinking charter policy, alternating between the state and national systems, which has marked and hampered banking progress in this country since its very inception."

Political Influence

He decried political considerations in connection with the chartering of banks, saying: "Political influence has no more place in banking than it has in the deliberations of our highest tribunal—The Supreme Court of the United States. Until this is recognized and brought into being within both our state and national systems, we may never feel safe against the shifting sands of political expedience."

As to the "element of sometimes ridiculous competition heretofore existing between the state and national systems," he said that much may be said in favor of the progress made in recent years. In many states there exists a practical working agreement between local supervising authorities and the federal authorities, whereby all charter applications are mutually considered on a basis of community need rather than competitive advantage as between systems. In some states this arrangement goes even further in the refusal of the one authority to even consider a charter while pending with the other, he declared.

Aside from the competitive and political aspects of our future charter policy, he continued, there are several others more individual and local which merit consideration. Among these he mentioned honesty of purpose, community need, the character of management and adequacy of capital.

Most state laws make reference to the "character, responsibility and fitness" of the incorporators of a new bank, he said, continuing:

"So important do I conceive this factor to be, that I place it first among those for consideration, for unless the motive is sound, honest and sincere, there is little likelihood that the resultant institution in its service to the community will reflect other than the spirit of its founders."

The Lessons of the Past

"Too often in the past have charters been granted to promoters pure and simple—not always pure, and by no means simple. The country was dotted with such. The experience has been costly and, it is to be hoped, the lesson well learned, not only by charter-granting authorities, but the public."

Other factors to be considered as among the most important in granting new bank charters, he said, are the number of institutions already serving the area, the record of earnings of existing institutions, the number of failures since 1920, and the reasons therefor, public convenience and advantage, the reasonable prospects for growth of the community, expectation of profitable operation and whether a branch bank could serve as well.

"Sound public policy demands that no new banks be chartered unless there is a definite, necessitous and permanent need," he declared. "Sound mergers, consolidations and the sensible extension of branch banking are much to be preferred to any general movement toward a flood of new charters. But here again we must guard carefully against monopoly or unbridled branch competition, either of which might become as dangerous as the organization of new banks."

Public Confidence

Challenging a recently published statement that there is an "apparent loss of public confidence in banks," William A. Boyd of Ithaca, N. Y., asks why, if this were true, bank deposits are constantly increasing. "I maintain that any banking institution which has continued to serve its community since the trying days of 1929 must be enjoying the respect and confidence of that community, and I am sure that the very large majority of banking institutions which have come through this depression have never had to 'regain' public confidence," he says.

TEXANS!
PLAN TO TRAVEL
TEXAS DURING—
CENTENNIAL
YEAR

All Texans are traveling this year, seeing and knowing their own state—the real Texas!

Residents of the Rio Grande Valley are finding that the Panhandle and Pecos countries of North and West Texas offer scenic attractions unsurpassed anywhere in the United States. East and West Texans are finding in the Rio Grande Valley a garden spot such as they never realized existed anywhere before. They're enjoying picturesque San Antonio and her historic missions. They're seeing Houston, visiting the San Jacinto battlegrounds; and spending happy, care-free days at Galveston, Corpus Christi and other Gulf Coast resorts!

Elaborate Centennial Celebrations make it especially interesting to travel Texas this year! Every section offers interesting attractions—events that come once in a century! Read the calendar printed at the right. For more detailed information, write the Chamber of Commerce at the cities you are interested in.
